Invitation

BUL-Tromsø orienteering club will host an event never seen before.

It consists of three days of MTBO on the island of Tromsø in Northern Norway 344 km north of the arctic circle.

Tromsø has a lot to offer and is a mecca for tourists and nature enthusiasts. Northern lights (Aurora Borealis) might show up during this time of the year and illuminate the sky in colours during the evening. During 2017 was more than 1,2 million accommodation nights sold to tourist. They come for fishing, skiing, seeing northern lights, dog sledding, mountain hiking, whale watching, midnight sun, wild life adventures... the list is long.

Tromsø is the "Capital of the North". This is centre for all the arctic expeditions and research and a great history is located here. Settlers came here as far ago as 11.000 years ago – it is not a coincidence that they chose this location.

We would like as many as possible to come and help us showing what MTBO is, since it is not a thing here yet. You can help us write history and create the sport you love here in the North. We greet you all as ambassadors for MTBO – hopefully this event will result in an environment securing the sport and future event for the world to enjoy!
